

Communication

Date	05 July 2026
Team ID	XXXXXX
Project Name	AI Powered Debt Relief & Financial Recovery Platform
Maximum Marks	1 Mark

Communication Plan:

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Google Meet / WhatsApp	Team Members	Discuss daily tasks, progress, and upcoming work
2	Progress Update	Weekly	Google Meet / WhatsApp	Team Members	Review completed tasks and plan next activities.
3	Issue / Bug Discussion	As Needed	GitHub	Team Members	Resolve coding issues, bugs, and technical challenges.
4	Stakeholder Review	Bi-Weekly	Google Meet	Team Members ,Mentors/faculty	Demonstrate project progress and collect feedback
5	Final Demo Rehearsal	Once	Google Meet / In Person	Team Members	Practice final project presentation and demonstration
6	Documentation Review	Once	Google Docs / WhatsApp	Team Members	Review project report and supporting documents

Communication Challenges & Resolutions:

S.No	Challenge Faced	Resolution / Action Taken
1	Complex Financial Terms: Some text in the application was difficult for users to understand.	We replaced the complex terms with simple and user-friendly words like "High Risk" and "Healthy Buffer" .
2	Gemini API Errors: During testing, the application received 429 (Too Many Requests) errors because of the free API limit.	We added backend error handling to display a fallback response instead of allowing the application to crash.
3	UI Layout Issues: Some pages, especially the Guidance page , had alignment and spacing problems on different screen sizes.	We redesigned the layout and used a responsive card design with a fixed maximum width for a clean and consistent interface.
